

## Institutional Development Plan

1. Curriculum Design and Review: The University would likely focus on reviewing and updating the curriculum to ensure it is aligned with the latest academic and industry trends. This includes introducing new programs, revising existing ones, and fostering a learner-centered approach.
2. Faculty Development: Training programs for teachers to enhance their pedagogical skills, including the integration of technology in teaching, e-learning methods, Indian Knowledge system, Artificial Intelligence, and student engagement strategies.
3. Encouraging research output and publication by faculty and students, and fostering inter-departmental and interdisciplinary research.
4. Collaborations and Partnerships: The University would focus on strengthening ties with academic institutions, industries, and international universities for research collaboration, student exchanges, and internships.
5. Promoting innovation and entrepreneurship by setting up innovation labs, incubation centers, or tech hubs to encourage students and faculty to convert their ideas into start-ups.
6. Implementing more robust systems for collecting and analyzing student feedback regarding courses, faculty, facilities, and overall university life. This feedback would be used to improve teaching quality and address any concerns promptly.
