Guidelines for thesis preparation

1. All copies of the thesis will be printed or word processed on standard A-4 size paper. The right margin should be 2.5 cm, the left margin 3.75 cm, the top margin 3.75 cm and the bottom margin 3.75 cm. Material should be printed on both sides of the paper. All textual material should be composed in Times New Roman font (12 point) and 1.5-spaced. All subheadings should be uniform and shall be written in 14 point. Different font size and spacing may be used for quotations, footnotes, tables and figures, appendix and index, (if any). Same style and type should be used throughout the thesis for clarity and uniformity. Throughout the manuscript an indentation of five spaces or as required in a standard word processor should be used at the beginning of paragraph and quotations. Dividing of words at the end of the line should be avoided as far as possible. Where it is necessary, hyphenation may be used.
2. The Maps and drawings may have appropriate size as advised by the Guide. But the thesis will have reduced version to A4 size. A set of copies as per the size suggested by the Guider for clarity to be submitted to COEA both in hard and soft copy
3. The title page (including the cover) should include the following – Title of the thesis, Name of the degree, Logo of USTM, Name of the Scholar of the thesis, Department under which the Scholar has registered and the Year of submission. The titles should be in capital letters beginning six spaces from the top of the page. If the title is too long to be centered on one line, an inverted pyramid style should be followed, without splitting words or phrases. Below the title, other items may be centered or balanced against the left and right margins of the page. Other items should not be typed in capital letters, only the initials of the principal words be capitalized. Name of the degree, title of the thesis and short name of the author, the year of submission be embossed / printed also on the spine of the cover of the final copy of the thesis in the hard bond form.
4. Formats for References in Thesis:

FORMAT A – PAPER PUBLISHED IN JOURNAL

Avoidh, E. M., Bertolotto, M., & Wilson, D. C. (2012). Towards dynamic behavior – based profiling for reducing spatial information overload in map browsing activity. *GeoInformatica*, 16(3), 409 -434. <http://dx.doi.org/10.1007/s10707-011-0137-4>
